NEW 2018 MUSTANG

Mustang GT Premium Fastback. Orange Fury Metallic Tri-coat. Available equipment. Pre-production model shown.

FASTBACK AND CONVERTIBLE

High-Power Sports Car Class¹
Series: EcoBoost®, EcoBoost Premium, GT, GT Premium

New, with a sleeker design, more advanced technology and improved performance, the 2018 Ford Mustang features a lower, restyled hood and grille, and new hood vents that give it a more athletic look. For the first time, the entire lineup features all-LED front lights, plus there are revised LED taillamps, new bumper, fascia and an available performance spoiler. Dual-tip exhaust is standard for Mustang EcoBoost®; V8-powered Mustang GT gets a standard quad-tip exhaust. A heated steering wheel is optional, while the standard rearview camera carries over. Available 12-inch, all-digital LCD instrument cluster offers unique displays for normal, sport and track modes. All-new MyMode lets customers save drive settings when ordered with the 12-inch cluster. The car’s engine note can be personalized with all-new active valve performance exhaust, available on Mustang GT.

Pre-Collision Assist with Pedestrian Detection, distance alert, lane-departure warning, lane-keeping assist and Driver Alert System are available driver-assist technologies. SYNC® Connect with FordPass™ is available for the first time. New shock absorbers, cross-axis joint on rear suspension and innovative stabilizer bars deliver an improved ride on all Series. MagneRide dampers are a new option with Mustang Performance Package. Standard 2.3-liter EcoBoost delivers increased torque, while thoroughly reworked 5.0-liter V8 brings improved horsepower, torque and fuel efficiency. Redesigned manual transmission for Mustang GT features twin-disc clutch and dual-mass flywheel for increased torque capability and more efficient clutch modulation. New 10-speed automatic transmission – available for both engines – delivers quicker shift times, better low-speed tip-in response and significantly reduced friction losses.
