

SHELBY F-150 SUPER SNAKE SPORT CONCEPT

During SEMA week 2019 Shelby American unveiled its concept Super Snake Sport truck at the Shelby World Headquarters. The Shelby Super Snake Sport F-150 concept was built in response to enthusiast's requests for a scorching fast street truck. The Shelby Super Snake Sport F-150 features a Shelby specific lowered suspension, 755 horsepower supercharged V8, throbbing exhaust note, stylish wheels and new brake system. The exterior was revised for a meaner and more aero look, while the interior has the Shelby amenities expected of a super truck.

While the current four-door Shelby trucks are extremely popular, hardcore fans requested a two-door version in the spirit of the great 1960s muscle cars. The Shelby team took that idea to trusted partners, suppliers, enthusiasts and team members to collaborate on the design and content. The Shelby Super Snake Sport F-150 is that vision come to life as a concept vehicle.

The team's goal was to build the unrivaled 'king of the road' F-150 and a "nightmare" for any other performance truck currently in production. The Shelby Super Snake Sport F-150 concept is astonishingly fast and lives up to our initial vision for the truck.

2020 Shelby F-150 Super Snake Sport Concept
