

2013 SHELBY FOCUS *ST*

In the 1980s, Carroll Shelby broke all the rules by turbocharging a small lightweight four cylinder vehicle, ushering in the first of Shelby's famed "Pocket Rockets". We often refer to those as "the good ole days", well the good ole days are TODAY, and the new era of Shelby Pocket Rocket has arrived on the NEW Eco-Boost powered 252 horsepower Shelby Focus ST.

Shelby performance upgrades in the suspension, brakes, exhaust, wheels and tires turn this popular Ford Focus into a road course dream while still delivering up to 40mpg. Shelby styling cues quickly set this car apart from the pack combining today's aggressive lines with design points that are uniquely Shelby.

Limited to just 500 cars per year this Shelby serial numbered original will quickly become a hit among first time Shelby owners young and old, and will find its way into the stable of the most seasoned collector.

Starting At: \$14,995

Does not include base vehicle, Shelby retains all take-off parts.
